Dwarka, Delhi, India

SKILLS

Languages: JavaScript, TypeScript

Frontend: React (18/19), Next.js 15, React Router v7 (SSR), Tailwind CSS, Radix UI, Ant Design, Storybook, Framer Motion

State & Forms: TanStack React Query, Zustand, React Hook Form, Zod

Backend: Node.js, Express.js v5, REST APIs, PostgreSQL, JWT Authentication, Socket.IO, Multer, Cron Jobs

Databases: MongoDB, PostgreSQL, SQL

Testing & Quality: Vitest, Jest, Supertest, Testcontainers, ESLint, Prettier

Cloud & Infra: AWS S3, AWS SDK v3, Docker, Vercel

Monitoring & Tooling: Sentry, Git, Husky, lint-staged

EDUCATION

B.Tech – Information Technology

Northern India Engineering College, Delhi (2017–2021)

Graduated with 1st Division, CGPA: 7.0

Higher Secondary Education

APS Dhaula Kuan, Delhi

PCM with Physical Education, 82% (2008–2017)

PROFILE SUMMARY

Full-stack developer with 4+ years of experience building and maintaining production-grade web applications using React, Next.js, TypeScript, and Node.js. Strong experience in developing scalable frontend systems, form-heavy workflows, and reusable component architectures, along with backend APIs using Express and PostgreSQL. Hands-on experience with AWS (S3, cloud-ready services), authentication systems, real-time features, and automated testing. Comfortable working across multiple codebases and owning features end-to-end in B2C production environments.

WORK EXPERIENCE

Green Fortune Technologies

2025-Present

Fullstack Developer

GreenFortune B2C — Operations Automation Platform

- Built a multi-role B2C operations platform (CXM, OC, PPIC, Accounts, Admin) using Next.js 15, React, TypeScript
- Implemented real-time notifications via Socket.IO (JWT-authenticated WebSockets)
- Designed role-based dashboards with Kanban pipelines, KPIs, and delayed-order tracking
- Created a type-safe frontend architecture using React Query, Zustand, Axios, and Zod
- Built reusable UI components with Radix UI + Tailwind; monitoring via Sentry, testing with Vitest

GreenFortune OpsGate — Backend Platform

- Developed 40+ REST APIs using Node.js, Express v5, PostgreSQL across layered architecture
- Implemented 4-stage payment workflows with approvals and consolidated tracking
- Integrated AWS S3 for document management and cron-based automation for reminders/alerts
- Implemented JWT-based RBAC (5 roles), real-time notifications, and integration tests using Jest + Testcontainers

IndiFrame Web — Retailer-Facing Brand Website

- Built the IndiFrame website from scratch using React Router v7 (SSR), React 19, TypeScript
- Developed multi-step lead capture forms with Zod validation, async pincode lookup, and bot protection
- Integrated Freshworks CRM with contact deduplication and incremental lead enrichment
- Implemented MDX-based blog system, SEO optimization, UTM tracking, and interactive SVG maps

Hippo Homes By Dalmia

2024-2025

Fullstack Developer

- Built and maintained multiple production applications (POS, kiosk, manual order, e-commerce) using Next.js, Node.js, PostgreSQL
- Implemented negotiation-based order workflows, customer creation, and CRM features
- Designed and maintained REST APIs supporting frontend systems
- Improved backend performance using Redis caching and database optimizations

Tech: Next.js, Node.js, PostgreSQL, MongoDB, Redis, Redux, Material UI

Nethues Technologies Pvt Ltd

2021-2024

- Migrated a legacy PHP application to Next.js, improving performance by ~40%
- Built data-driven UIs using React Query, Zustand, Chakra UI, and Chart.js
- Developed an events & ticketing platform with Stripe payments, shared UI via TurboRepo, and push notifications (OneSignal)
- Ensured cross-browser compatibility, GDPR compliance, and secure data handling

Tech: Next.js, React Query, Zustand, Chakra UI, Stripe, TurboRepo, Chart.js
